

## Shredder-Grinder DZ 750 E

### Applications

The multi-purpose shredders of the DOPPSTADT DZ series process old growth, root wood, green waste, bulky stem wood and much more. The combination of a slow-going, contaminant-resistant pre-shredding system and a downstream high-speed post-processing system makes for the perfect solution for the most demanding shredding tasks.

### Advantages

- Shredding and grinding in one machine
- Production of finished goods in one machine
- Easy one-man operation
- Contaminant-resistant high-speed shredding
- Application of very strong magnets
